

MAY 19 @ 4PM
The Capitol
(more details to come)

Fund youth jobs!

Join youth and advocates in five cities on **May 19** to support the inclusion of **\$2 billion** in the economic stimulus package for a summer youth employment program.

DC has become a shining example for youth employment. With a Summer Youth Employment Program that will place nearly 10,000 young people in the workplace this summer and an expected growth to 15,000 in 2009, Mayor Fenty and his Administration have made a real investment in the future of the City's young people. We urge Congress to do the same and make an investment in the young people of our nation, by including \$2 billion in the national economic stimulus package for summer youth employment programs.

On **May 19** stand with people in Chicago, Los Angeles, New York, Philadelphia, Minneapolis and Washington, DC will stand together to support legislation that would ensure summer jobs for **3 million young people.**

If you cannot come out on May 19, please email or call your representatives to encourage this \$2 billion be included in the national economic stimulus package.

The future of 3 million youth depends on it.
